A Toro NSN Field Trainer will instruct both two-day classes. Learn Lynx and hone your skills. Each student will use a computer and will receive a manual with needed information and resource aids. Interact with other Lynx users and learn from an experienced instructor.

Contact your distributor for tuition cost. Many have prepaid class tuitions from extended support plans with NSN. Lunch both days and dinner the first evening will be provided by NSN. **Maximize your irrigation investment by attending!**

GCSAA approved course with 1.5 for Lynx Level 1 and 1.4 for Lynx Level 2 external education credits.

Complete the registration form now to ensure a slot in the class.
